SUBJECT: Stargate

called 30 Jan.

Just now talked to [redacted] the DIA Office head who has this program in his component.

[redacted] expects a call from you on Monday to arrange for the first step - a visit by him to our office so he can give us his perspective and start the process of getting detailed briefings and data for the blue ribbon panel we plan to do first. (I told him that was our plan). I would like to attend the meeting, but do not want to delay it so please meet with him without me if my absence next week after tuesday interferes with the meeting.
